Bournemouth Libraries want everyone who lives, works or studies in Bournemouth to read this book!

Join In Join Up in the National Year of Reading!

One freezing morning, a lone man wandering across the Arctic ice cap is rescued from starvation by a ship's captain. Victor Frankenstein's story is one of ambition, murder and revenge. As a young scientist he pushed moral boundaries in order to cross the final scientific frontier and create life. But his creation is a monster stitched together from grave-robbled body parts who has no place in the world, and his life can only lead to tragedy.

Written when she was only nineteen, Shelley's gothic tale is one of the greatest horror stories ever written

"A masterpiece" - Philip Pullman

"More relevant today than ever" -

Benjamin Zephaniah
